

Senate Bill No. 916

CHAPTER 308

An act to amend Section 1799.111 of the Health and Safety Code, relating to health facilities.

[Approved by Governor October 5, 2007. Filed with
Secretary of State October 5, 2007.]

LEGISLATIVE COUNSEL'S DIGEST

SB 916, Yee. Acute psychiatric hospitals: patient detention and release.

Existing law exempts a licensed general acute care hospital, as defined, licensed professional staff of the hospital, or any physician and surgeon, providing emergency medical services to a person at the hospital from civil and criminal liability for detaining a person, or for the actions of the person after release from the hospital, if certain conditions exist, including, among other things, that the person is not detained beyond 8 hours.

This bill would revise and recast the immunity provisions to in part exempt a licensed acute psychiatric hospital that is not a specified mental health facility designated by the county, or licensed general acute care hospital that is not a specified mental health facility designated by the county, from civil or criminal liability for detaining a person under specified conditions, and would increase the maximum period of detention to 24 hours. The bill would impose additional conditions applicable when the detention is for more than 8, but less than 24 hours.

The bill would recast the immunity provisions for conduct of the person after release by establishing additional conditions, including, but not limited to, conditions applicable to release by a clinical psychologist, and conditions applicable when the physician and surgeon and the clinical psychologist disagree.

The people of the State of California do enact as follows:

SECTION 1. Section 1799.111 of the Health and Safety Code is amended to read:

1799.111. (a) A licensed general acute care hospital, as defined by subdivision (a) of Section 1250, that is not a county-designated facility pursuant to Section 5150 of the Welfare and Institutions Code, a licensed acute psychiatric hospital, as defined in subdivision (b) of Section 1250, that is not a county-designated facility pursuant to Section 5150 of the Welfare and Institutions Code, licensed professional staff of those hospitals, or any physician and surgeon, providing emergency medical services in any department of those hospitals to a person at the hospital shall not be civilly

or criminally liable for detaining a person who is subject to detention pursuant to Section 5150 of the Welfare and Institutions Code, if all of the following conditions exist during the detention:

(1) The person cannot be safely released from the hospital because, in the opinion of the treating physician and surgeon, or a clinical psychologist with the medical staff privileges, clinical privileges, or professional responsibilities provided in Section 1316.5, the person, as a result of a mental disorder, presents a danger to himself or herself, or others, or is gravely disabled. For purposes of this paragraph, “gravely disabled” means an inability to provide for his or her basic personal needs for food, clothing, or shelter.

(2) The hospital staff, treating physician and surgeon, or appropriate licensed mental health professional, have made, and documented, repeated unsuccessful efforts to find appropriate mental health treatment for the person.

(3) The person is not detained beyond 24 hours.

(4) There is probable cause for the detention.

(5) If the person is detained beyond eight hours, but less than 24 hours, all of the following additional conditions shall be met:

(A) A transfer for appropriate mental health treatment for the person has been delayed because of the need for continuous and ongoing care, observation, or treatment that the hospital is providing.

(B) In the opinion of the treating physician and surgeon, or a clinical psychologist with the medical staff privileges or professional responsibilities provided for in Section 1316.5, the person, as a result of a mental disorder, is still a danger to himself or herself, or others, or is gravely disabled, as defined in paragraph (1) of subdivision (a).

(b) In addition to the conditions set forth in subdivision (a), a licensed general acute care hospital, as defined by subdivision (a) of Section 1250 that is not a county-designated facility pursuant to Section 5150 of the Welfare and Institutions Code, a licensed acute psychiatric hospital as defined by subdivision (b) of Section 1250 that is not a county-designated facility pursuant to Section 5150 of the Welfare and Institutions Code, licensed professional staff of those hospitals, or any physician and surgeon, providing emergency medical services in any department of those hospitals to a person at the hospital shall not be civilly or criminally liable for the actions of a person detained up to 24 hours in those hospitals who is subject to detention pursuant to Section 5150 of the Welfare and Institutions Code after that person’s release from the detention at the hospital, if all of the following conditions exist during the detention:

(1) The person has not been admitted to a licensed general acute care hospital or a licensed acute psychiatric hospital for evaluation and treatment pursuant to Section 5150 of the Welfare and Institutions Code.

(2) The release from the licensed general acute care hospital or the licensed acute psychiatric hospital is authorized by a physician and surgeon or a clinical psychologist with the medical staff privileges or professional responsibilities provided for in Section 1316.5, who determines, based on

a face-to-face examination of the person detained, that the person does not present a danger to himself or herself or others and is not gravely disabled, as defined in paragraph (1) of subdivision (a). In order for this paragraph to apply to a clinical psychologist, the clinical psychologist shall have a collaborative treatment relationship with the physician and surgeon. The clinical psychologist may authorize the release of the person from the detention, but only after he or she has consulted with the physician and surgeon. In the event of a clinical or professional disagreement regarding the release of a person subject to the detention, the detention shall be maintained unless the hospital's medical director overrules the decision of the physician and surgeon opposing the release. Both the physician and surgeon and the clinical psychologist shall enter their findings, concerns, or objections in the person's medical record.

(c) Nothing in this section shall affect the responsibility of a general acute care hospital or an acute psychiatric hospital to comply with all state laws and regulations pertaining to the use of seclusion and restraint and psychiatric medications for psychiatric patients. Persons detained under this section shall retain their legal rights regarding consent for medical treatment.

(d) A person detained under this section shall be credited for the time detained, up to 24 hours, in the event he or she is placed on a subsequent 72-hour hold pursuant to Section 5150 of the Welfare and Institutions Code.

(e) The amendments to this section made by the act adding this subdivision shall not be construed to limit any existing duties for psychotherapists contained in Section 43.92 of the Civil Code.

(f) Nothing in this section is intended to expand the scope of licensure of clinical psychologists.
